ALOA MEMBERS RECEIVE WARNING!

ALOA and your Association at work for the YOU!

Why Should I be certified?

The simple answer is that to remain as competitive as possible today, you must be certified. With the recent changes in security awareness caused by 9/11 the bar has been raised in the security profession. Employers, contractors, governments, and even clients are now taking additional steps to ensure that they are hiring or working with the most skilled and knowledgeable individuals in the security business.

Many States are including in their licensing regulations the same requirements as those for ALOA's certifications.

Professional certifications from ALOA offer another screening tool – one that has the backing and credibility of the preeminent professional association in the world for those who are responsible for locks, safes and physical security.

Every profession requires specialized skills. Not every employer knows that you have those skills. In short, certification is an investment in your career, your livelihood, your future.

If you want... To demonstrate your advanced knowledge as a locksmith/safe technician

- To gain instant professional credibility
 - To advance your career
 - To stand head and shoulders above the competition
 - To increase your earnings potential
 - To be a step ahead now that licensing has come to your state
- ...then you should become certified today.

COMPLETE THIS: TO ACHIEVE THIS LEVEL

VERY IMPORTANT

Classes must be signed up and paid for 30 days before the date of the class, so we will know if we have enough people to have a class. If we do not have enough people to fill a class 30 days before the class date, we will have to cancel the class. This may cause you to have to travel to get your CEU credits or mandatory classes or you may not be able to get them when needed. SO, look at the classes and sign up NOW. You can also pay for your class on line www.locksmithala.org

May 16 & 17, 2009 in Montgomery, Al

(Required) E004 Two Day Comprehensive Access Control

CLASS CONCEALED DUE TO NOT ENOUGH PEOPLE SIGNED UP BY APRIL 16TH

The next class is Automotive classes that several of you have asked for and the sign up deadline is JUNE 26th, 2009. If you do not sign up and pay by this date we will have to cancel this class also. All these classes are ALOA classes and can be used as part of your certification

JULY 25 & 26, 2009 in Hoover, Al

(These credit hours can be used for 2010)

A006 Intermediate Automotive Lock Service (P-03)

Instructor: Ed Woods, CML, CPS or Ray D'Adamo, CML **8 hours** This course is for students already familiar with basic automotive lock service, who wish to learn about servicing the more advanced, two dimensional mechanical and electromechanical security systems found in today's vehicles. Some examples of the topics covered are system identification & electromechanical integration, intermediate lock, linkage & electromechanical manipulation, air bag & basic transponder key service, special tools, troubleshooting, effecting repairs and fitting fully functional first keys. Prerequisites: Basic Automotive Lock Service or equivalent experience. The information presented will be useful in preparing for PRP Section L-03 & L-04. ALOA members who pay the additional lab fee for the test may take PRP Section L-03 at the end of the class.

A011 Advanced Transponder Systems & Keyless Remotes

Instructor: Ed Woods, CML, CPS or Ray D'Adamo, CML **8 hours** This class will cover the more advanced transponder systems and will include the latest troubleshooting methods and techniques on these more complex systems. The class will also cover the lucrative Keyless Remote market which is a natural fit with those who do automotive key making and servicing. There will be hands on programming of transponder equipped vehicles and Keyless Remote systems depending on vehicle availability. Prerequisite: Basic Transponders

The information presented will be useful in preparing for PRP section L-03.

B013 ALOA PRP Exam Prep

Instructor: J. Casey Camper, CML, CPS

16 hours

This is not a beginning locksmith class. The class is designed as a review for locksmiths who have hands on field experience, but have not taken or passed the L-00 Mandatory exam of the ALOA Proficiency Registration Program. The class will consist of a lecture and power point review of the ten basic locksmithing topics (Key Origination by Code and Code Equipment; Pin and Disc Cylinder Servicing; Key Blank Identification; Key Duplication Techniques and Equipment; Key Origination by Impressioning; Professional Lock Opening Techniques; Lockset Servicing; Lockset Functions and Finishes; Basic Master Keying; Cabinet, Furniture and Mailbox Locks) that are incorporated into the L-00 exam.

You will also learn: tips to help you approach the exam in the proper frame of mind; techniques to ease your test taking fears; how to read written exam questions to best determine what is being asked; and how to select the correct answer in a multiple choice exam. If you are a locksmith who has gained your knowledge either from hands-on field experience or on the job training, this class will provide the tools that you need for being successful in certification exam preparation. The ALOA Resource Guide will be the class text.

Note: A \$20 fee is required to cover the cost of the ALOA PRP Resource Guide.

The information presented will be useful in preparing for PRP section L-00. Students who take the course and are ALOA members may take the L-00 PRP exam during the final 3 hours of the class for an additional \$25.00 this option is not available to non-members..

There will also be a full PRP Exam conducted at the same time. A separate form is required to register directly with ALOA for the full PRP Exam.

Form for PRP Test is at www.locksmithala.org
